

Mexico, City, July 17, 2015.

To whom it may concern,

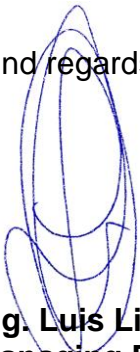

The Mexican Federation of Aerospace Industries, A.C. (FEMIA®) is a nonprofit association that includes the majority of the aerospace companies in Mexico, recognized by the Federal Government, given that it was established to gather all national and international corporations within the sector.

The Federation was established in November 2007, for 25 companies including Representaciones, Asesoría, Mantenimiento y Servicios, S.A. de C.V. (RAMSA) this company is currently headed for Mr. Javier Vazquez Godinez, who has integrated the Board of Directors of our association, and its contributions have been important for the consolidation of projects and development of the activities as an organization

For this reason, FEMIA recognizes the excellent work of this member company through Mr. Vazquez and we extend this communication upon request and purposes of the interested.

Finally, we appreciate your kind attention, if you need more information for this matter, please do not hesitate in contact us.

Kind regards,

Ing. Luis Lizcano
Managing Director.

Mexican Federation of the
Aerospace Industry.
